

HY010: Total household gross income

Domain/Area	Income/Total household income (gross and disposable)	
Transmission type	Regular	
Reference period	Income reference period	
Unit	Household	
Mode of collection	Constructed	
Values	-999999.99 - 999999.99	Income (national currency) without inflation factor
Flags	<i>See chapter 'Income flags'</i>	

Description

Difference with the EU-SILC Regulations: Pensions received from individual private plans (other than those covered under ESSPROS) (PY080G)/(PY080N) are treated as a component of property income, and should be included in the total household gross income (HY010) ¹.

Inclusion of PY080 in HY010 should be implemented by countries from the 2011 operation onwards.

Total gross household income (HY010) is computed as:

The sum for all household members of gross personal income components

Gross employee cash or near cash income (PY010G),

Company car (PY021G),

Gross cash benefits or losses from self-employment (including royalties) (PY050G),

Pensions received from individual private plans (other than those covered under ESSPROS) (PY080G),

Unemployment benefits (PY090G),

Old-age benefits (PY100G),

Survivor' benefits (PY110G),

Sickness benefits (PY120G),

Disability benefits (PY130G),

Education-related allowances (PY140G);

Plus gross income components at household level

~~imputed rent (HY030G),~~

Income from rental of a property or land (HY040G),

Family/children related allowances (HY050G),

Social exclusion not elsewhere classified (HY060G),

Housing allowances (HY070G),

Regular inter-household cash transfers received (HY080G),

¹ This follows a recommendation from the TF on methodological issues. The Indicator Sub Group (ISG) agreed in 2010 to include PY080 in the income definition and consequently in the computation of OMC indicators.

Interests, dividends, profit from capital investments in unincorporated business (HY090G),
Income received by people aged under 16 (HY110G));

That means:

$HY010 = HY040G + HY050G + HY060G + HY070G + HY080G + HY090G + HY110G +$
[for all household members]($PY010G + PY021G + PY050G + PY080G + PY090G +$
 $PY100G + PY110G + PY120G + PY130G + PY140G$).

Note: The new income components are mandatory from the 2007 operation onwards, i.e. the non-monetary income components, as well as interest paid on mortgage and employers' social insurance contributions, with the exception of the company car and the pensions received from individual private plans (other than those covered under ESSPROS), are not included in the computation of the aggregated income variables and in the computation of the EU indicators (OMC indicators) until a final decision of the ISG concerning the inclusion of these components has been taken. However, these components have to be recorded at component level in their respective codes, i.e. PY020G, PY030G, HY170G, HY030G, HY100G.
