# Introduction

The Nomenclature of Territorial Units for Statistics (NUTS) was drawn up by Eurostat over 30 years ago in order to provide a breakdown of the economic territory of the European Union<sup>(1)</sup> into territorial units for the production of regional statistics and for targeting political interventions at a regional level. The NUTS classification has been used in EU legislation since 1988<sup>(2)</sup>, however, it was only encoded into a formal Regulation of the European Parliament and the Council in 2003<sup>(3)</sup>.

The NUTS classification can normally only be amended after at least three years have passed since the previous version. The first two amendments were established in 2006 and 2010. This publication covers the third, regular revision of the NUTS regions, called 'NUTS 2013'. It came into effect on 1 January 2015<sup>(4)</sup> and replaces the NUTS 2010. A fourth, extraordinary amendment was organized in 2014 following a substantial reorganisation of the administrative structure in Portugal<sup>(5)</sup>. The changes resulting from this amendment are also reflected in this publication.

Correspondence tables showing the differences between every NUTS version since 1999 are available on the Eurostat website<sup>(6)</sup>.

The NUTS serves several objectives:

- It ensures harmonised standards in the collection and transmission of regional data;
- It guarantees that published regional statistics are based on comparable data;
- It enables the analysis and comparison of the socio-economic situation of the regions based on harmonised data;
- Policy interventions such as the European Structural Funds can be specifically targeted to support disadvantaged and less competitive regions.

The purpose of this publication is to present the European regions according to the NUTS 2013 classification in the form of tables and maps. It replaces the previous Eurostat publication issued in January 2011, and includes all the changes which have taken place since then.

<sup>(1)</sup> Reference for the definition of the economic territory of the EU: Regulation (EU) No 549/2013 of the European Parliament and of the Council of 21 May 2013 on the European system of national and regional accounts in the European Union (ESA 2010 (European System of Accounts)) Annex A: points 2.05, 13.11 and 12, OJ L 174, 26.06.2013.

<sup>(2)</sup> Council Regulation (EEC) No 2052/88 on the tasks of the Structural Funds: OJ L 185, 15.7.1988.

<sup>(3)</sup> Regulation (EC) No 1059/2003 of the European Parliament and the Council on the establishment of a common classification of territorial units for statistics (NUTS); OJ L 154, 21.6.2003. The consolidated version of the Regulation is set out in Annex 1 of this document.

<sup>(4)</sup> OJ L 342 18.12.2013 and OJ L 241, 13.8.2014. The texts of these Regulations are set out in Annexes 2 and 3.

<sup>(5)</sup> Commission Regulation (EU) No 868/2014 of 8 August 2014 amending the annexes to Regulation (EC) No 1059/2003 of the European Parliament and of the Council on the establishment of a common classification of territorial units for statistics (NUTS), OJ L 241, 13.8.2014.

<sup>(6)</sup> <http://ec.europa.eu/eurostat/web/nuts/history>.

The maps in this document are simply intended to enable the reader to locate the regions; the regional boundaries shown are also indicative. The scales used differ depending on the country. The countries are listed in the official protocol order, which is alphabetically based on the spelling in its national language.

European regional statistics according to the NUTS breakdown can be accessed through the Eurostat online database<sup>(7)</sup>. Depending on the domain and variable concerned, regional statistics are available at one or more of the three NUTS levels.

Some examples of regional datasets available on Eurostat's website at the NUTS 2 level are:

- agriculture
  - animal populations
  - production of cow's milk on farms
- demography
  - population by age and sex
  - fertility rates by age
  - life expectancy by age and sex
- regional economic accounts
  - gross domestic product at current market prices
- labour market
  - employment by sex and age
  - average number of usual weekly hours of work in the main job
- education
  - number of students by age and sex
  - early leavers from education and training by sex
- poverty and social exclusion
  - at-risk-of-poverty-rate

...and many more, covering aspects of science and technology, business, tourism, transport, labour costs, information society, crime as well as environment and energy in addition to those mentioned above. A complete overview is available on the Eurostat website<sup>(7)</sup>.

## Basic principles

The NUTS classification subdivides the economic territory of the EU Member States into territorial units (regions), whereby the following principles apply:

<sup>(7)</sup> <http://ec.europa.eu/eurostat/web/regions/data/database>.

*a) The NUTS classification includes three hierarchical levels*

The classification is made up of three hierarchical levels: each Member State is divided into so-called NUTS 1 regions, which in turn are subdivided into NUTS 2 regions and then divided further

into NUTS 3 regions. Each of these regions is allocated a specific code and name. Since several different regions within Europe have the same name, a distinction has been made by adding to each of these the abbreviation for the country concerned. The following table shows one of the NUTS 1 regions of the UK, including its breakdown into NUTS 2 and 3 regions, as an example:

<b>Code</b>	<b>NUTS 1</b>	<b>NUTS 2</b>	<b>NUTS 3</b>
UKD	NORTH WEST (ENGLAND)		
UKD1		Cumbria	
UKD11			West Cumbria
UKD12			East Cumbria
UKD3		Greater Manchester	
UKD33			Manchester
UKD34			Greater Manchester South West
UKD35			Greater Manchester South East
UKD36			Greater Manchester North West
UKD37			Greater Manchester North East
UKD4		Lancashire	
UKD41			Blackburn with Darwen
UKD42			Blackpool
UKD44			Lancaster and Wyre
UKD45			Mid Lancashire
UKD46			East Lancashire
UKD47			Chorley and West Lancashire
UKD6		Cheshire	
UKD61			Warrington
UKD62			Cheshire East
UKD63			Cheshire West and Chester
UKD7		Merseyside	
UKD71			East Merseyside
UKD72			Liverpool
UKD73			Sefton
UKD74			Wirral

Some regions appear at more than one level (for example: Luxembourg appears as the country and also for NUTS levels 1, 2 and 3). In such cases, the codes end in zero for a region with an identical territory at the next lower level. For

Luxembourg, the NUTS 1 code is 'LU0', the NUTS 2 code is 'LU00' and the NUTS 3 code is 'LU000'. The labels do not need to be identical at the different levels, even if the regions concerned cover identical territory.

*b) NUTS favours administrative units <sup>(8)</sup> already existing in the Member States*

Existing administrative units within the Member States constitute the very first criterion for the definition of the NUTS regions. The main reason for this is that the existence of administrative structures usually supports the availability of data and the implementation capacity of policy measures.

If no administrative units exist for a given level, it can be constituted by aggregating smaller administrative units to that higher level. This aggregation shall take geographical, socio-economic, historical, cultural or environmental circumstances into consideration. The resulting aggregated units are referred to as “non-administrative units”.

Examples of administrative and non-administrative units being designated as NUTS regions are:

NUTS level	Germany	Spain	France	Italy
NUTS 1	Bundesländer	non-administrative aggregations	non-administrative aggregations	non-administrative aggregations
NUTS 2	Regierungsbezirke/ non-administrative aggregations	Comunidades autónomas	Régions	Regioni
NUTS 3	Kreise und Kreisfreie Städte	Provincias	Départements	Province

*c) The NUTS Regulation lays down minimum and maximum thresholds for the population size of the regions*

The average size of the regions in the respective level shall lie within the following thresholds:

Level	Minimum	Maximum
NUTS 1	3 million	7 million
NUTS 2	800 000	3 million
NUTS 3	150 000	800 000

For non-administrative units, deviations exist for particular geographical, socio-economic, historical, cultural or environmental circumstances, especially for islands and outermost regions.

*d) The NUTS are complemented at the lower level by local administrative units (LAU)*

Districts and municipalities constitute a more detailed level than NUTS 3. These are called ‘Local Administrative Units’ (LAUs), exist in two levels (LAU 1 and LAU 2) and are only briefly mentioned in the NUTS Regulation. Not all the Member States use the level of LAU 1; however, LAU 2 regions are defined for the whole EU. More information is available on the Eurostat website <sup>(9)</sup>.

## Amending NUTS

The NUTS Regulation lays down the rules for amendments of the regional breakdown.

No earlier than at least three years after the previous amendment, the Commission can launch the procedure to renew the classification, often following notifications by Member States about changes in their administrative structures. In close co-operation with the Member States, the Commission initiates the legislative procedure to amend the annexes of the NUTS Regulation, in which the territorial units are specified.

A number of detailed rules apply; while changes in national administrative regions lead virtually automatically to a change in the NUTS classification, for non-administrative units the NUTS Regulation stipulates that changes must entail a reduction of the standard deviation of the size in terms of population of all EU territorial units.

The latest amendment round, whose results are reflected in this publication, was specified in Commission Regulation (EU) No 1319/2013 of 9 December 2013, entered into force on 31 December 2013 and shall apply, with regard to the transmission of data to the Commission (Eurostat), from 1 January 2015. All agreed changes are reflected in this publication.

Due to a substantial reorganisation of the administrative structure in Portugal which was finalised after the amendment procedure of 2013, the Commission agreed to launch an extraordinary amendment which entered into force in August 2014. Although the amendment shall apply with regard to the transmission of data to the Commission (Eurostat) from 1 January 2016, the Statistical Office of Portugal (INE) and Eurostat agreed, for practicality reasons, that Portugal will already apply the new breakdown from 1 January 2015.

<sup>(8)</sup> An “administrative unit” is a geographical area with an administrative authority that has the power to take administrative or policy decisions for that area within the legal and institutional framework of the Member State (Regulation 1083/2003, art. 3 (2)).

<sup>(9)</sup> <http://ec.europa.eu/eurostat/web/nuts/local-administrative-units>.

## Purpose of NUTS

NUTS serves as a reference:

*a) For the collection, development and harmonisation of the European Union's regional statistics*

During the 1970s, NUTS gradually replaced the specific divisions used in the various statistical domains (agricultural regions, transport regions, etc.), and it was on the basis of NUTS that regional economic accounts were developed and the regional sections of EU surveys were defined.

The NUTS still ensures that regional data is collected EU-wide on an agreed and harmonised basis, making certain that the data is comparable between the regions.

*b) For socio-economic analyses of the regions*

The different levels of NUTS provide an analytical scheme. The 1961 Brussels Conference on Regional Economies, organised by the Commission, found that NUTS 2 (basic regions) was the framework generally used by Member States to apply their regional policies and is therefore the appropriate level for analysing regional/national problems. On the other hand, NUTS 1 (major socio-economic regions grouping together basic regions) should be used for analysing regional problems within the EU, such as 'the effect of the customs union and economic integration on areas at the next level down from national areas'. NUTS 3, which broadly comprises regions which are too small for complex economic analyses, may be used for specific analysis or to pinpoint where regional measures need to be taken.

*c) For the framing of EU regional policies*

The new rules in the legislation governing the programming period of EU Cohesion Policy funding for 2014-2020 state that Structural Funds support is now solely based on the classification of NUTS 2 regions. For the purpose of receiving funding from the Structural Funds, NUTS 2 regions are classified into less developed regions, transition regions and more developed regions. The allocation of resources from the Funds depends on this classification (<sup>10</sup>).

## Regional classification beyond the EU

The NUTS nomenclature is only defined for the 28 Member States of the European Union. For the countries that make up the European Free Trade Association (EFTA), regions have been encoded in a way which resembles the NUTS.

Concerning the EU candidate countries, Eurostat has drafted together with them a nomenclature of statistical regions intended to produce a hierarchy similar to the NUTS (<sup>11</sup>). On accession to the EU, the breakdown into statistical regions in force in a given country, agreed bilaterally, will become part of the NUTS and subject to its provisions in the NUTS Regulation.

## Main characteristics

The current NUTS nomenclature, applicable from 1 January 2015, subdivides the economic territory of the European Union into 98 regions at NUTS 1 level, 276 regions at NUTS 2 level and 1 342 regions at NUTS 3 level.

Below those, two levels of Local Administrative Units (LAUs) have been defined. The upper LAU level (LAU 1, formerly NUTS level 4) is only defined for the following countries: Bulgaria, the Czech Republic, Denmark, Germany, Estonia, Ireland, Greece, France, Cyprus, Lithuania, Luxembourg, Hungary, Malta, Poland, Portugal, Slovenia, the Slovakia, Finland and the United Kingdom. The lower LAU level (LAU 2, formerly NUTS level 5) consists of around 121 000 municipalities or equivalent units in the 28 EU Member States (as from 2013).

The aim of the NUTS classification is to ensure that comparable regions appear at the same NUTS level. With the population size being defined in the NUTS Regulation as a key indicator for comparability, each level inevitably contains regions that differ greatly in terms of area, economic weight or administrative powers.

Some examples below illustrate the heterogeneity of the regions, focusing here on area size and the population figures:

### Area size

#### NUTS 1

**Largest:**

Manner-Suomi (Finland), 336 855 km<sup>2</sup> and Norra Sverige (Sweden), 309 936 km<sup>2</sup>

**Smallest:**

Région de Bruxelles-Capitale / Brussels Hoofdstedelijk Gewest (Belgium), 161 km<sup>2</sup> and Malta, 316 km<sup>2</sup>

#### NUTS 2

**Largest:**

Pohjois- ja Itä-Suomi (Finland), 226 785 km<sup>2</sup> and Övre Norrland (Sweden), 164 077 km<sup>2</sup>

**Smallest:**

Ciudad Autónoma de Melilla (Spain), 13.4 km<sup>2</sup> and Ciudad Autónoma de Ceuta (Spain), 19.5 km<sup>2</sup>

#### NUTS 3

**Largest:**

Norrbottens län (Sweden), 105 205 km<sup>2</sup> and Lappi (Finland), 98 987 km<sup>2</sup>

**Smallest:**

Same as NUTS 2 (Melilla and Ceuta), followed by Schweinfurt, kreisfreie Stadt (Germany), 35.7 km<sup>2</sup>

(<sup>10</sup>) <http://eur-lex.europa.eu/legal-content/EN/TXT/PDF/?uri=CELEX:32013R1303&from=EN>.

(<sup>11</sup>) <http://ec.europa.eu/eurostat/web/nuts/statistical-regions-outside-eu>.

## *Population (approximations)*

### NUTS 1

**Largest:**

Nordrhein-Westfalen (Germany), 17.5 million and Nord-Ovest (Italy), 16 million

**Smallest:**

Åland (Finland), 28 500 and the Região Autónoma dos Açores (Portugal), 247 000

### NUTS 2

**Largest:**

Île de France (France), 12 million and Lombardia (Italy), 10 million

**Smallest:**

Åland (Finland), 28 500 and the Ciudad Autónoma de Melilla (Spain), 84 000

### NUTS 3

**Largest:**

Madrid (Spain), 6.5 million and Barcelona (Spain), 5.5 million

**Smallest:**

El Hierro (Spain), 10 500 and Evrytania (Greece), 20 000 inhabitants.

Tables 2 and 3 show the largest, smallest and average areas and populations at the three NUTS levels, for each Member State and for the European Union as a whole.

### Changes compared with 2010

The most significant change is the accession of a new Member State, Croatia, to the NUTS classification (<sup>(12)</sup>).

While only two countries had changes at the NUTS 1 level, three countries have changes at NUTS 2 and seven countries at the NUTS 3 level.

The changes in the current NUTS version (NUTS 2013) compared to NUTS 2010 are as follows (<sup>(13)</sup>):

	NUTS 1	NUTS 2	NUTS 3
Germany	–	–	Sixteen regions merged to six in Mecklenburg-Vorpommern.
Greece	Border shift occurred between two regions.	–	Five pairs of regions merged and Attiki has been split into seven regions.
France	Départements d'outre-mer reduced in size by St. Barthélemy and increased by Mayotte.	Guadeloupe has reduced in size following the separation of St. Barthélemy (which left the economic territory of France). Mayotte joined the economic territory of France.	Guadeloupe has reduced in size following the separation of St. Barthélemy (which left the economic territory of France). Mayotte joined the economic territory of France.
Poland	–	–	Thirteen regions were reorganised into nineteen.
Portugal	–	–	Twenty-one regions were reorganised into seventeen.
Slovenia	–	Border shift occurred between two regions.	Border shift occurred between two pairs of regions.
United Kingdom	–	Two regions of London split into five.	In England, fourteen regions split into forty-eight along borders of Local Authorities.

(<sup>12</sup>) The inclusion of Croatian regions was implemented by Council Regulation 517/2013. OJ L 158, 10.6.2013.

(<sup>13</sup>) Excluding simple name and code changes.

## UNITED KINGDOM (NORTH) - NUTS level 3

## UNITED KINGDOM (SOUTH) - NUTS level 3

## Annex 1

**REGULATION (EC) No 1059/2003 OF THE  
EUROPEAN PARLIAMENT AND OF THE COUNCIL  
of 26 May 2003  
on the establishment of a common classification  
of territorial units for statistics (NUTS) (¹)**

THE EUROPEAN PARLIAMENT AND THE COUNCIL  
OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European  
Community, and in particular Article 285 thereof,

Having regard to the proposal from the Commission (²),

Having regard to the opinion of the European Economic  
and Social Committee (³),

Having regard to the opinion of the Committee of the Re-  
gions (⁴),

Acting in accordance with the procedure laid down in Article 251 of the Treaty (⁵),

Whereas:

(1) Users of statistics express an increasing need for harmonisation in order to have comparable data across the European Union. In order to function, the internal market requires statistical standards applicable to the collection, transmission and publication of national and Community statistics so that all operators in the single market can be provided with comparable statistical data. In this context, classifications are an important tool for the collection, compilation and dissemination of comparable statistics.

(2) Regional statistics are a cornerstone of the European Statistical System. They are used for a wide range of purposes. For many years European regional statistics have been collected, compiled and disseminated on the basis of a common regional classification, called 'Nomenclature of territorial units for statistics' (hereinafter referred to as NUTS). It is now appropriate to fix this regional classification in a legal framework and to institute clear rules for future amendments of this classification. The NUTS classification should not preclude the existence of other subdivisions and classifications.

(¹) Consolidated version as of 8.8.2014

(²) OJ C 180 E, 26.6.2001, p. 108.

(³) OJ C 260, 17.9.2001, p. 57.

(⁴) OJ C 107, 3.5.2002, p. 54.

(⁵) Opinion of the European Parliament of 24 October 2001 (OJ C 112 E, 9.5.2002, p. 146). Council Common Position of 9 December 2002 (OJ C 32 E, 11.2.2003, p. 26) and Decision of the European Parliament of 8 April 2003 (not yet published in the Official Journal).

- (3) Accordingly, all Member States' statistics transmitted to the Commission, which are broken down by territorial units, should use the NUTS classification, where applicable.
- (4) In its analysis and dissemination, the Commission should use the NUTS classification for all statistics classified by territorial units, where applicable.
- (5) Different levels are needed for regional statistics depending on the purpose of these statistics at national and European level. It is appropriate to have at least three hierarchical levels of detail in the European regional NUTS classification. Member States could have further levels of NUTS details, where they consider it necessary.
- (6) Information on the current territorial composition of NUTS level 3 regions is necessary for the proper administration of the NUTS classification and should therefore be transmitted regularly to the Commission.
- (7) Objective criteria for the definition of regions are necessary in order to ensure impartiality when regional statistics are compiled and used.
- (8) Users of regional statistics need stability of the nomenclature over time. The NUTS classification should hence not be amended too frequently. This Regulation will ensure a greater stability of rules over time.
- (9) Comparability of regional statistics requires that the regions be of a comparable size in terms of population. In order to achieve this goal, amendments of the NUTS classification should render the regional structure more homogeneous in terms of population size.
- (10) The actual political, administrative and institutional situation must also be respected. Non-administrative units must reflect economic, social, historical, cultural, geographical or environmental circumstances.
- (11) Reference should be made to the definition of the 'population' on which the classification is based.
- (12) The NUTS classification is restricted to the economic territory of the Member States and does not provide complete coverage of the territory to which the Treaty establishing the European Community applies. Its use for Community purposes will therefore need to be assessed on a case-by-case basis. The economic territory of each country, as defined in Commission Decision 91/450/EEC (⁶), also includes extraregio territory, made up of parts of the economic territory that cannot be attached to a certain region (air-space, territorial waters and the continental shelf, territorial enclaves, in particular embassies, consulates and military bases, and deposits of oil, natural gas, etc.

(⁶) OJ L 240, 29.8.1991, p. 36.

in international waters, outside the continental shelf, worked by resident units). The NUTS classification must also provide the possibility of statistics for this extraregio territory.

- (13) Amendments to the NUTS classification will require close consultations with the Member States.
- (14) Since the objective of the proposed action, namely the harmonisation of regional statistics, cannot be sufficiently achieved by the Member States and can therefore be better achieved at Community level, the Community may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty. In accordance with the principle of proportionality, as set out in that Article, this Regulation does not go beyond what is necessary in order to achieve that objective.
- (15) The NUTS classification laid down in this Regulation should replace the 'Nomenclature of territorial units for statistics (NUTS)' established to date by the Statistical Office of the European Communities in cooperation with the national statistical institutes. As a consequence, all references in Community acts to the 'Nomenclature of territorial units for statistics (NUTS)' should now be understood as referring to the NUTS classification laid down in this Regulation.
- (16) Council Regulation (EC) No 322/97 of 17 February 1997 on Community Statistics<sup>(7)</sup> constitutes the reference framework for the provisions of this Regulation.
- (17) The measures necessary for the implementation of this Regulation should be adopted in accordance with Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission<sup>(8)</sup>.
- (18) The Statistical Programme Committee established by Council Decision 89/382/EEC, Euratom<sup>(9)</sup> has been consulted in accordance with Article 3 thereof,

HAVE ADOPTED THIS REGULATION:

## Article 1

### *Subject matter*

- (1) The purpose of this Regulation is to establish a common statistical classification of territorial units, hereinafter referred to as 'NUTS', in order to enable the collection, compilation and dissemination of harmonised regional statistics in the Community.

<sup>(7)</sup> OJ L 52, 22.2.1997, p. 1.

<sup>(8)</sup> OJ L 184, 17.7.1999, p. 23.

<sup>(9)</sup> OJ L 181, 28.6.1989, p. 47.

- (2) The NUTS classification laid down in Annex I shall replace the 'Nomenclature of territorial units for statistics (NUTS)' established by the Statistical Office of the European Communities in cooperation with the national statistical institutes of the Member States.

## Article 2

### *Structure*

- (1) The NUTS classification subdivides the economic territory of the Member States, as defined in Decision 91/450/EEC, into territorial units. It ascribes to each territorial unit a specific code and name.
- (2) The NUTS classification is hierarchical. It subdivides each Member State into NUTS level 1 territorial units, each of which is subdivided into NUTS level 2 territorial units, these in turn each being subdivided into NUTS level 3 territorial units.
- (3) However, a particular territorial unit may be classified at several NUTS levels.
- (4) At the same NUTS level, two different territorial units in the same Member State may not be identified by the same name. If two territorial units in different Member States have the same name, the country identifier is added to the territorial units' names.
- (5) In each Member State, there can be further hierarchical levels of detail, decided by the Member State, whereby NUTS level 3 is subdivided. Within two years from the entry into force of this Regulation, the Commission, after consulting the Member States, shall submit a communication to the European Parliament and the Council on the appropriateness of establishing rules on a Europe-wide basis for more detailed levels in the NUTS classification.

## Article 3

### *Classification criteria*

- (1) Existing administrative units within the Member States shall constitute the first criterion used for the definition of territorial units. To this end, 'administrative unit' shall mean a geographical area with an administrative authority that has the power to take administrative or policy decisions for that area within the legal and institutional framework of the Member State.
- (2) In order to establish the relevant NUTS level in which a given class of administrative units in a Member

State is to be classified, the average size of this class of administrative units in the Member State shall lie within the following population thresholds:

<b>Level</b>	<b>Minimum</b>	<b>Maximum</b>
NUTS 1	3 million	7 million
NUTS 2	800 000	3 million
NUTS 3	150 000	800 000

If the population of a whole Member State is below the minimum threshold for a given NUTS level, the whole Member State shall be one NUTS territorial unit for this level.

- (3) For the purpose of this Regulation, the population of a territorial unit shall consist of those persons who have their usual place of residence in this area.
- (4) The existing administrative units used for the NUTS classification are laid down in Annex II. Measures designed to amend non-essential elements of this Regulation and adapting Annex II shall be adopted in accordance with the regulatory procedure with scrutiny referred to in Article 7(2).
- (5) If for a given level of NUTS no administrative units of a suitable scale exist in a Member State, in accordance with the criteria referred to in paragraph 2, this NUTS level shall be constituted by aggregating an appropriate number of existing smaller contiguous administrative units. This aggregation shall take into consideration such relevant criteria as geographical, socio-economic, historical, cultural or environmental circumstances.

The resulting aggregated units shall hereinafter be referred to as 'non-administrative units'. The size of the non-administrative units in a Member State for a given NUTS level shall lie within the population thresholds referred to in paragraph 2.

Some non-administrative units may, however, deviate from those thresholds because of particular geographical, socio-economic, historical, cultural or environmental circumstances, especially in the islands and the outermost regions. Those measures, designed to amend non-essential elements of this Regulation by supplementing it, shall be adopted in accordance with the regulatory procedure with scrutiny referred to in Article 7(2).

ponents of each NUTS level 3 territorial unit in terms of the smaller administrative units as laid down in Annex III, as transmitted to it by the Member States.

Measures designed to amend non-essential elements of this Regulation and adapting Annex III shall be adopted in accordance with the regulatory procedure with scrutiny referred to in Article 7(2).

- (2) Within the first six months of each year, Member States shall transmit to the Commission all changes of the components for the previous year that may affect the NUTS level 3 boundaries and in so doing shall respect the electronic data format requested by the Commission.

## Article 5

### *Amendments to NUTS*

The Member States shall inform the Commission of:

- (a) all changes that have occurred in administrative units, in so far as they may affect the NUTS classification, as laid down in Annex I, or the contents of Annexes II and III;
- (b) all other changes at the national level that may affect the NUTS classification, in accordance with the classification criteria laid down in Article 3.

Changes to NUTS level 3 boundaries due to changes of smaller administrative units as laid down in Annex III:

- (a) shall not be considered as amendments of NUTS if they involve a population transfer equal to or less than one percent of the NUTS 3 territorial units concerned;
- (b) shall be considered as amendments of NUTS, in accordance with paragraph 3 of this Article, if they involve a population transfer of more than one percent of the NUTS 3 territorial units concerned.

Amendments to the NUTS for the non-administrative units in a Member State, as referred to in Article 3(5), may be made if, at the NUTS level in question, the amendment reduces the standard deviation of the size in terms of population of all EU territorial units.

- (4) Amendments to the NUTS classification shall be adopted in the second half of the calendar year, not more frequently than every three years, on the basis of the criteria laid down in Article 3. Those measures, designed to amend non-essential elements of this Regulation, shall be adopted in accordance with the regulatory procedure with scrutiny referred to in Article 7(2). Nevertheless, in

## Article 4

### *Components of NUTS*

- (1) Within six months after the entry into force of this Regulation, the Commission shall publish the com-

the case of a substantial reorganisation of the relevant administrative structure of a Member State, the amendments to the NUTS classification may be adopted at intervals of less than three years.

The Commission implementing measures referred to in the first subparagraph shall enter into force, with regard to the transmission of the data to the Commission, on 1 January of the second year after their adoption.

- (5) When an amendment is made to the NUTS classification, the Member State concerned shall transmit to the Commission the time series for the new regional breakdown, to replace data already transmitted. The list of the time series and their length shall be specified by the Commission, taking into account the feasibility of providing them. Those measures, designed to amend non-essential elements of this Regulation by supplementing it, shall be adopted in accordance with the regulatory procedure with scrutiny referred to in Article 7(2). The time series are to be supplied within two years of the amendment of the NUTS classification.

## Article 6

### *Management*

The Commission shall take the necessary measures to ensure the consistent management of the NUTS classification. In particular, such measures may include:

- (a) drafting and updating of explanatory notes on NUTS;
- (b) examination of problems arising from the implementation of NUTS in the Member States' classifications of territorial units.

## Article 7

- (1) The Commission shall be assisted by the Statistical Programme Committee.
- (2) Where reference is made to this paragraph, Article 5a (1) to (4) and Article 7 of Decision No 1999/468/EC shall apply, having regard to the provisions of Article 8 thereof.

## Article 8

### *Reporting*

Three years after the entry into force of this Regulation, the Commission shall submit a report on its implementation to the European Parliament and the Council.

## Article 9

### *Entry into force*

This Regulation shall enter into force on the 20th day following that of its publication in the Official Journal of the European Union.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 26 May 2003.

*For the European Parliament*

*The President*

P. Cox

*For the Council*

*The President*

G. Drys

## ANNEX I

### *The NUTS classification*

**ANNEX II***Existing administrative units*

At NUTS level 1 for Belgium ‘Gewesten/Régions’, for Germany ‘Länder’, for Portugal ‘Continente’, ‘Região Autónoma dos Açores’ and ‘Região Autónoma da Madeira’, and for United Kingdom ‘Scotland, Wales, Northern Ireland’ and the ‘Government Office Regions of England’.

At NUTS level 2 for Belgium ‘Provincies/Provinces’, for Denmark ‘Regioner’, for Greece ‘Περιφέρειες (Periferies)’, for Spain ‘Comunidades Autónomas, Ciudades Autónomas’, for France ‘Régions’, for Italy ‘Regioni’, for the Netherlands ‘Provincies’, for Austria ‘Länder’ and for Poland ‘Województwa’.

At NUTS level 3 for Belgium ‘Arrondissementen/Arrondissements’, for Bulgaria ‘Области (Oblasti)’, for the Czech Republic ‘Kraje’, for Germany ‘Kreise, kreisfreie Städte’, for Spain ‘Provincias, Consejos insulares’ and ‘Cabildos’, for France ‘Départements’, for Croatia ‘Županije’, for Italy ‘Provincie’, for Lithuania ‘Apskriftis’, for Hungary ‘Megyék’, for Portugal ‘Entidades Intermunicipais’, ‘Região Autónoma dos Açores’ and ‘Região Autónoma da Madeira’, for Romania ‘Județe’, for Slovakia ‘Kraje’, for Sweden ‘Län’ and for Finland ‘Maakunnat/Landskap’.

**ANNEX III***Smaller administrative units*

For Belgium ‘Gemeenten/Communes’, for Bulgaria ‘Населени места (Naseleni mesta)’, for the Czech Republic ‘Obce’, for Denmark ‘Kommuner’, for Germany ‘Gemeinden’, for Estonia ‘Vald, Linn’, for Ireland ‘Counties, County boroughs’, for Greece ‘Δήμοι (Demoi)’, for Spain ‘Municipios’, for France ‘Communes’, for Croatia ‘Gradovi, općine’, for Italy ‘Comuni’, for Cyprus ‘Δήμοι, κοινότητες (Demoi, koinotites)’, for Latvia ‘Republikas pilsētas, novadi’, for Lithuania ‘Seniūnija’, for Luxembourg ‘Communes’, for Hungary ‘Települések’, for Malta ‘Localities’, for the Netherlands ‘Gemeenten’, for Austria ‘Gemeinden’, for Poland ‘Gminy, miasta’, for Portugal ‘Freguesias’, for Romania ‘Municipii, Orașe’ and ‘Comune’, for Slovenia ‘Občine’, for Slovakia ‘Obce’, for Finland ‘Kunnat/Kommuner’, for Sweden ‘Kommuner’ and for the United Kingdom ‘Wards’.

## Annex 2

### COMMISSION REGULATION (EU) No 1319/2013 of 9 December 2013

#### amending annexes to Regulation (EC) No 1059/2003 of the European Parliament and of the Council on the establishment of a common classification of territorial units for statistics (NUTS)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1059/2003 of the European Parliament and of the Council of 26 May 2003 on the establishment of a common classification of territorial units for statistics (NUTS)<sup>(10)</sup>, and in particular Articles 3(4), 4(1) and 5(4) thereof,

Whereas:

- (1) Regulation (EC) No 1059/2003 establishes a common classification of territorial units in order to enable the collection, compilation and dissemination of harmonised regional statistics in the Union.
- (2) The Annexes to Regulation (EC) No 1059/2003 list the territorial units to be used for statistics.
- (3) In accordance with the provisions in Article 5(4) of Regulation (EC) No 1059/2003, amendments to the NUTS classification shall be adopted in the second half of the calendar year not more frequently than every three years.
- (4) The NUTS classification was last amended by Commission Regulation (EU) No 31/2011<sup>(11)</sup>.

- (5) According to the information provided to the Commission, the administrative territorial division has changed in several Member States.
- (6) Regulation (EC) No 1059/2003 should therefore be amended accordingly.
- (7) The measures provided for in this Regulation are in accordance with the opinion of the European Statistical System Committee,

HAS ADOPTED THIS REGULATION:

#### Article 1

The Annexes to Regulation (EC) No 1059/2003 are replaced by the text in the Annex to this Regulation.

#### Article 2

This Regulation shall apply, with regard to the transmission of data to the Commission (Eurostat), from 1 January 2015.

#### Article 3

This Regulation shall enter into force on the 20th day following its publication in the Official Journal of the European Union.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 9 December 2013.

## Annex 3

### COMMISSION REGULATION (EU) No 868/2014

of 8 August 2014

**amending the annexes to Regulation (EC) No 1059/2003 of the European Parliament and of the Council on the establishment of a common classification of territorial units for statistics (NUTS)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1059/2003 of the European Parliament and of the Council of 26 May 2003 on the establishment of a common classification of territorial units for statistics (NUTS) (<sup>(12)</sup>), and in particular Articles 3(4), 4(1) and 5(4) thereof,

Whereas:

- (1) Regulation (EC) No 1059/2003 establishes a common classification of territorial units in order to enable the collection, compilation and dissemination of harmonised regional statistics in the Union.
- (2) The Annexes to Regulation (EC) No 1059/2003 list the territorial units to be used for statistics.
- (3) In accordance with Article 5(4) of Regulation (EC) No 1059/2003, amendments to the NUTS classification may be adopted, in the case of a substantial reorganisation of the relevant administrative structure of a Member State, at intervals of less than three years.
- (4) The NUTS classification was last amended by Commission Regulation (EU) No 1319/2013 (13).

- (5) According to the information provided to the Commission, the administrative territorial division of Portugal has undergone a substantial reorganisation.
- (6) Regulation (EC) No 1059/2003 should therefore be amended accordingly.
- (7) The measures provided for in this Regulation are in accordance with the opinion of the European Statistical System Committee,

HAS ADOPTED THIS REGULATION:

### Article 1

The Annexes to Regulation (EC) No 1059/2003 are replaced by the text in the Annex to this Regulation.

### Article 2

This Regulation shall apply, with regard to the transmission of data to the Commission (Eurostat), from 1 January 2016.

### Article 3

This Regulation shall enter into force on the twentieth day following its publication in the Official Journal of the European Union.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 8 August 2014.
